Contents

Preface **v**

1 General Linear Inequalities for Sequences **1**
1.1 Convex Sequences of Higher Order 1
1.2 ∇-Convex Sequences of Higher Order 13
1.3 Starshaped Sequences 19
1.4 Mean-convex and Mean-starshaped Sequences 21
1.5 p-monotone and p,q-convex Sequences 24
1.6 Multilinear Forms 29
1.6.1 Results for Δ- and ∇-convex sequences 29
1.6.2 Results for p-monotone, p,q-convex and Starshaped Sequences 35

2 General Linear Inequalities for Functions of One Variable **41**
2.1 Basic Results on Convexity of Higher Order 41
2.2 Approach via Taylor's Formula 45
2.3 Discrete Convex Functions of Higher Order 48
2.4 Discrete Starshaped Functions of Higher Order 55
2.5 Results for n-convex Functions with $2n$ Nodes 57
2.6 n-Convex Functions at a Point 60
2.6.1 Levinson Type Inequality as an Application 70

3 General Linear Inequalities for Multivariate Functions **77**
3.1 Discrete Results for Functions of Two Variables 78
3.2 P-convex functions 81
3.3 Discrete Results for Functions of n Variables 83
3.4 Results for Integral of Function of Two Variables 89
3.5 Results for Integral of Function of n Variables 94
3.6 Mean Value Theorems and Exponential Convexity 102

www.element.hr

4 Functions with Nondecreasing Increments **107**
4.1 Inequalities for Functions with Nondecreasing Increments 107
4.2 Functions with Nondecreasing Increments of Order n 116
4.3 Arithmetic Integral Mean 123
4.4 Functions with Nondecreasing Increments of Order 3 124
4.4.1 Levinson Type Inequality for Functions with Nondecreasing Increments of the Third Order 124
4.4.2 Generalizations of the Burkill-Mirsky-Pečarić Result 125

5 Linear Inequalities via Interpolation Polynomials **127**
5.1 Inequalities via Extension of the Montgomery Identity 128
5.1.1 Inequalities Obtained by the Montgomery Identity 131
5.1.2 Inequalities for n-convex Functions at a Point 135
5.1.3 Bounds for the Remainders and Functionals 138
5.1.4 Results Obtained by the Green Function and the Montgomery Identity 143
5.1.5 Bounds for the Remainders 147
5.1.6 Mean Value Theorems and Exponential Convexity 151
5.1.7 Examples with Applications 158
5.2 Linear Inequalities via the Taylor formula 160
5.2.1 Inequalities via the Taylor Formula 160
5.2.2 Inequalities via the Green Function 166
5.2.3 Inequalities for n-convex Functions at a Point 170
5.2.4 Bounds for the Remainders and Functionals 173
5.2.5 Mean Value Theorems and Exponential Convexity 175
5.3 Linear Inequalities and Lidstone Interpolation Polynomials 180
5.3.1 Inequalities for n-convex Functions at a Point 186
5.3.2 Bounds for the Remainders and Functionals 188
5.4 Linear Inequalities and Hermite Interpolation Polynomials 190
5.4.1 Inequalities Obtained via Hermite Interpolating Polynomials 192
5.4.2 Bounds for the Remainders and Functionals 197
5.5 Linear Inequalities and the Fink Identity 199
5.5.1 Inequalities via the Fink Identity 199
5.5.2 Inequalities via the Fink Identity and the Green Function 204
5.5.3 Bounds for the Remainders and Functionals 208
5.5.4 Mean Value Theorems 209
5.6 Linear Inequalities and the Abel-Gontscharoff Interpolation Polynomial . 210
5.6.1 Inequalities Obtained via the Abel-Gontscharoff Interpolating Polynomials 211
5.6.2 Results Obtained by the Green Function 214

6 Čebyšev-Popoviciu Type Inequalities **217**
6.1 Generalized Čebyšev and Ky Fan Identities and Inequalities 217
6.1.1 Generalized Discrete Čebyšev's Identity and Inequality 224
6.1.2 Generalized Integral Čebyšev's Identity and Inequality 229
6.1.3 Generalized Integral Ky Fan's Identity and Inequality 235
6.2 Montgomery Identities for Higher Order Differentiable Functions of Two Variables 237
6.2.1 Montgomery Identities for Double Weighted Integrals of Higher Order Differentiable Functions 239
6.2.2 Ostrowski Inequalities for Double Weighted Integrals of Higher Order Differentiable Functions 248
6.2.3 Grüss' Inequalities for Double Weighted Integrals of Higher Order Differentiable Functions 250
6.3 Inequalities for the Čebyšev Functional Involving Higher Order Derivatives 254
6.3.1 The Main Identity 255
6.3.2 Applications 258

Bibliography **263**

Index **271**
