| <b>Who contributed to this book</b>                                       | <b>vii</b> |
| <b>Preface</b>  | <b>ix</b>  |
| <b>Notation</b>   | <b>xi</b>  |
| <b>1 Fundamental inequalities and Mond-Pečarić method</b>                 | <b>1</b>   |
| 1.1 Classical Jensen's inequality . . . . .                               | 1          |
| 1.2 Operator convexity . . . . .  | 6          |
| 1.3 Positive linear maps . . . . .  | 18         |
| 1.4 Kantorovich inequality . . . . .                                      | 24         |
| 1.5 Mond-Pečarić method . . . . .   | 30         |
| 1.6 Notes . . . . .   | 32         |
| <b>2 Converses of Jensen's inequalities</b>                               | <b>35</b>  |
| 2.1 Converses of Jensen's inequalities for positive linear maps . . . . . | 35         |
| 2.2 Ratio type reverse inequalities . . . . .                             | 43         |
| 2.3 Difference type reverse inequalities . . . . .                        | 50         |
| 2.4 A generalization of Ky Fan type inequalities . . . . .                | 57         |
| 2.5 Converses of Jensen's inequality for selfadjoint operators . . . . .  | 65         |
| 2.6 Determinant for positive operators . . . . .                          | 67         |
| 2.7 A generalized Kantorovich constant . . . . .                          | 76         |
| 2.8 Notes . . . . .   | 90         |
| <b>3 Li-Mathias type inequality</b>                                       | <b>91</b>  |
| 3.1 Preliminary and Li-Mathias inequality . . . . .                       | 91         |
| 3.2 Generalization of Li-Mathias inequality . . . . .                     | 95         |
| 3.3 Li-Mathias type complementary inequalities . . . . .                  | 97         |
| 3.4 Application to power functions . . . . .                              | 105        |
| 3.5 Matrix inequalities of Ky Fan type . . . . .                          | 109        |
| 3.6 Notes . . . . .   | 111        |

|          |  |            |
|----------|--|------------|
| <b>4</b> | <b>Power mean</b>  | <b>113</b> |
| 4.1      | Preliminary . . . . .  | 113        |
| 4.2      | Complementary inequality to power means . . . . .                            | 116        |
| 4.3      | Ky Fan type inequalities . . . . .   | 129        |
| 4.4      | Inequalities for power means . . . . .                                       | 130        |
| 4.5      | Chaotic order among power means . . . . .                                    | 134        |
| 4.6      | Notes . . . . .  | 138        |
| <b>5</b> | <b>Operator means</b>  | <b>139</b> |
| 5.1      | Operator means . . . . .   | 139        |
| 5.2      | Relative operator entropy . . . . .  | 149        |
| 5.3      | Interpolational path . . . . .   | 155        |
| 5.4      | Converses of Ando type operator means<br>inequalities . . . . .              | 159        |
| 5.5      | Mixed operator means . . . . .   | 167        |
| 5.6      | Notes . . . . .  | 169        |
| <b>6</b> | <b>Inequalities on the Hadamard product</b>                                  | <b>171</b> |
| 6.1      | Preliminaries . . . . .  | 171        |
| 6.2      | Converses of Jensen's type inequalities . . . . .                            | 180        |
| 6.3      | Application to some functions . . . . .                                      | 183        |
| 6.4      | Inequalities on Hadamard product and operator means . . . . .                | 188        |
| 6.5      | Generalization of Hadamard product of matrices . . . . .                     | 197        |
| 6.6      | Notes . . . . .  | 198        |
| <b>7</b> | <b>Furuta inequality and its application</b>                                 | <b>201</b> |
| 7.1      | Furuta inequality . . . . .  | 201        |
| 7.2      | Operator functions associated with Theorem G . . . . .                       | 210        |
| 7.3      | Chaotic order and the relative operator entropy . . . . .                    | 213        |
| 7.4      | Notes . . . . .  | 217        |
| <b>8</b> | <b>Mond-Pečarić ideas in operator order</b>                                  | <b>219</b> |
| 8.1      | Fundamental results . . . . .  | 219        |
| 8.2      | General form preserving the operator order . . . . .                         | 228        |
| 8.3      | Form preserving the operator order for convex function . . . . .             | 230        |
| 8.4      | Kantorovich type inequalities under the operator order . . . . .             | 233        |
| 8.5      | Chaotic order version . . . . .  | 236        |
| 8.6      | Kantorovich type inequalities via generalized<br>Furuta inequality . . . . . | 239        |
| 8.7      | Form reversing the operator order . . . . .                                  | 248        |
| 8.8      | Notes . . . . .  | 250        |
|          | <b>Bibliography</b>  | <b>251</b> |
|          | <b>Index</b>   | <b>261</b> |
