<b>Preface</b>	<b>v</b>
<b>Notation</b>	<b>vii</b>
<b>1 Introduction</b>	<b>1</b>
1.1 Convex Functions . . . . .	1
1.2 Interpolations of Jensen's Inequality . . . . .	4
1.3 Quotients for samples without repetitions . . . . .	8
1.3.1 New Proof of Theorem . . . . .	13
1.4 Applications of Quotient inequalities . . . . .	14
1.5 Application to Mixed Symmetric Means . . . . .	19
<b>2 Refinements of Jensen's Inequality</b>	<b>25</b>
2.1 A Refinement of the Discrete Jensen's Inequality . . . . .	25
2.1.1 Examples and Mixed Symmetric Means Related to Theorem 2.1 . . . . .	34
2.1.2 Examples and Mixed Symmetric Means Related to Theorem 2.2 . . . . .	38
2.2 A New Treatment of Discrete Jensen's Inequality . . . . .	42
2.2.1 Examples and Mixed Symmetric Means Related to Theorem 2.3 . . . . .	48
2.3 Parameter Dependent Refinement of Discrete Jensen's inequality . . . . .	55
2.3.1 Some lemmas and the proofs of Theorem 2.5-2.7 . . . . .	57
2.3.2 Applications to Mixed Symmetric Means . . . . .	64
<b>3 Further Refinements of Jensen's Inequality</b>	<b>67</b>
3.1 Preliminary results and the proofs . . . . .	70
3.2 Applications to Mixed means . . . . .	78
<b>4 Popoviciu Type Inequalities</b>	<b>81</b>
4.1 Generalization of Popoviciu's Inequality . . . . .	82
4.2 Popoviciu Inequality for $2D$ -Convex Functions . . . . .	84

<b>5</b>	<b>Refinements Including Integral Jensen's Inequality</b>	<b>87</b>
5.0.1	Mixed Symmetric Means Related to Theorems (5.3-5.5) . . . . .	97
5.1	New Refinement of Classical Jensen's Inequality . . . . .	102
5.1.1	Mixed Symmetric Means Related to Theorem 5.7 . . . . .	104
5.2	Another Refinement of integral form of Jensen's Inequality . . . . .	105
<b>6</b>	<b>Mean Value Theorems and Exponential Convexity</b>	<b>125</b>
6.1	Mean Value Theorems . . . . .	125
6.2	Exponential Convexity . . . . .	131
6.3	Applications to Cauchy Means . . . . .	137
<b>7</b>	<b>Refinements of Hölder's and Minkowski's inequalities</b>	<b>157</b>
7.1	Generalizations of Beck's result . . . . .	162
7.2	Generalizations of the Consequences of Beck's Result . . . . .	173
7.3	Generalization of Minkowski's inequality . . . . .	182
<b>8</b>	<b>Refinements of Jensen's Inequality for Operator Convex Functions</b>	<b>187</b>
8.1	Introduction and Preliminary Results . . . . .	187
8.2	Refinement of Jensen's Operator Inequality . . . . .	190
8.2.1	Applications of Theorem 8.4 to some special cases . . . . .	191
8.2.2	Symmetric Means related to Theorem 8.4 . . . . .	193
8.3	Further Refinement of Jensen's Operator Inequality . . . . .	198
8.3.1	Applications of Theorem 8.4 to some Special Cases . . . . .	199
8.4	Parameter Dependent Refinement of Jensen's Operator Inequality . . . . .	203
8.4.1	Applications . . . . .	208
8.4.2	Parameter Dependent Operator Means . . . . .	208
<b>9</b>	<b>Refinements of Determinantal Inequalities of Jensen's type</b>	<b>211</b>
9.1	Introduction and Preliminary Results . . . . .	211
9.2	Refinement Results . . . . .	214
9.2.1	Discussion and Applications Related to Theorem 9.1 . . . . .	215
9.3	Generalization of Theorem 9.1 . . . . .	218
9.3.1	Discussion and Applications related to Theorem 9.2 . . . . .	219
9.4	Parameter Dependent Refinements . . . . .	222
	<b>Bibliography</b>	<b>223</b>
	<b>Index</b>	<b>229</b>
