Contents

1 Introduction and Preliminaries **1**

2 Cyclic Improvement of Jensen's Inequality **3**
2.1 A refinement of Jensen's inequality 3
2.1.1 Cyclic mixed symmetric means 4
2.1.2 m-Exponential convexity 6
2.1.3 Mean value theorems 9
2.1.4 Applications to Cauchy means 11
2.2 Cyclic refinements of the discrete and integral form of Jensen's inequality with applications 14
2.2.1 Cyclic refinements of the discrete and classical Jensen's inequalities 14
2.2.2 Applications to mixed symmetric means 20
2.2.3 m-exponential convexity, mean value theorems and Cauchy means 24
2.3 Further Applications To Holder's Inequality 26

3 Cyclic Improvements of Inequalities for Entropy of Zipf-Mandelbrot Law **29**
3.1 Estimations of f- and Rényi divergences by using a cyclic refinement of the Jensen's inequality 31
3.1.1 Inequalities for Csiszár divergence and Shannon entropy 31
3.1.2 Inequalities for Rényi divergence and entropy 34
3.1.3 Inequalities by using the Zipf-Mandelbrot law 40
3.2 A refinement and an exact equality condition for the basic inequality of f-divergences 41
3.2.1 Construction of the equality conditions and related results of classical integral Jensen's inequality 41
3.2.2 Refinements of basic inequality in f-divergences and related results 47

4 Cyclic Refinement of Beck's Inequalities **53**
4.1 Introduction and preliminary results 53
4.2 Refinements when **p** is the discrete uniform distribution 55
4.3 Refinement of Minkowski's inequality 58
4.4 Weighted version of cyclic refinement of Beck's inequalities 59
4.5 Weighted Refinement of Beck's Inequality 60
4.6 Weighted Refinement of Minkowski's inequality 62

5 Cyclic Refinements of the Different Versions of Operator Jensen's Inequality **63**
5.1 Introduction . . . 63
5.2 Cyclic refinements of the operator Jensen's inequality for convex functions . . . 65
5.3 Cyclic refinements of the operator Jensen's inequality for operator convex functions . . . 68

6 Cyclic Refinements of Jensen's Inequality Via Taylor's Formula **71**
6.1 Extensions of cyclic refinements of Jensen's inequality by Taylor's formula . . . 73
6.2 Applications to information theory . . . 80

7 Cyclic Refinements of Jensen's Inequality Via Fink's Identity **85**
7.1 Generalization of cyclic refinements of Jensen's inequality for $n-$convex functions Via A. M. Fink's identity . . . 86
7.2 Applications to information theory . . . 90

8 Cyclic Refinements of Jensen's Inequality VIA Montgomery's Identity **97**
8.1 Generalization of cyclic refinements of Jensen's inequality by Montgomery identity . . . 98
8.2 Applications to information theory . . . 103

9 Cyclic Refinements of Jensen's Inequality by Lidstone Interpolating Polynomial **109**
9.1 Extensions of cyclic refinements of Jensen's inequality by Lidstone interpolating polynomial . . . 110
9.2 Applications to information theory . . . 114

10 Cyclic Refinements of Jensen's Inequality and Abel-Gontscharoff Interpolating Polynomial **121**
10.1 Extensions of cyclic refinements of Jensen's inequality by Abel-Gontscharoff interpolation . . . 124
10.2 Applications to information theory . . . 129

11 Cyclic Refinements of Jensen's Inequality by Hermite Intepolating Polynomial **133**
11.1 Extensions of cyclic refinements of Jensen's inequality by Hermite interpolation . . . 136
11.2 Applications to information theory . . . 141

12 Levinson's Type Generalization of Cyclic Refinements of Jensen's Inequality and Related Applications **145**
12.1 Cyclic refinements of Jensen's inequalities for 3-convex function at a point . . . 146
12.2 Applications In Information Theory . . . 154
12.2.1 Monotonic inequalities Via Zipf-Mandelbrot law . . . 159
